A Complete Success

The Brazilian Lightning Championship, was held for the first time in Guaratuba, 100 kilometers from Curitiba, capital of the State of Parana, on September 7, 8 and 9. The championship was hosted by ENAMAR – Escola de Náutica e Marinharia de Guaratuba, which housed the boats during the entire event and was responsible for the championships organization.

Serving as the Brazilian selection for the South American Championship, occurring at the end of the year in Colombia, the event counted with the participation of fifteen boats and forty-five sailors from the states of Paraná, São Paulo and Santa Catarina, who disputed a total of nine races in three days of competition.

Low currents and light to moderate winds with constant direction shifts gave the RC significant amount of work to set the racing course. The RC was led by Victor São Thiago.

The championship was concluded with the victory of the Brazilian Championship crew in 2011 formed by: Cláudio Bieckark, Gunnar Ficker and Marcelo Silva. In second the crew led by, Pan-American and World Champion, Mário Buckup, Thelma Buckup and Mark Buckup followed by the crew led by Thomas Sumner, three-time Junior World Champion. All three crews were from São Paulo.
