This past weekend, Dec 6-8, 2002 the SYC Fleet 405 organized the Pacific Cup Regatta which we intend to run every year. Conditions were near perfect for learning, especially for light teams. Best conditions for kids, really. 8-10 knots, light chop, 5-10 degree oscillations, warm and sunny!

Fleet 405 provided boats, accommodations and social events. Crews just needed to show up. For this first edition we had seven teams which had a real nice competition.

If junior teams are interested please write to us at [psola@norlopiwt.com.ec](mailto:psola@norlopiwt.com.ec) and let us know. We are also trying to find a date that is more suitable to more people so we can increase attendance.
