DIRECTORY OF OWNERS

as of June 1, 1941

This list is as complete and accurate as possible from the Association records on the above date. Many numbers are assigned to builders and these are transferred to dealers and private owners as the boats are completed. While builders and dealers are cooperating with the Association in notifying the Association of such transfers, the reports are often delayed. If some present private owners find their boat number still recorded in the name of a dealer or builder, it is because the report has not reached the Association Secretary in time for correction on this list. Private owners are asked to write the Association Secretary as soon as possible and note all corrections in names, numbers, addresses and sailing locations, so that subsequent lists may be more nearly correct. Forms have been distributed with all Association mailings for the purposes of checking and correcting this information. Numbers higher than the last one shown on this list have been issued after the Yearbook went to press. Lists showing additional numbers, transfers and corrections are available from the Secretary on request.

NOTE: *Where the owner's sailing location and fleet affiliation is known, this information is shown in italics, on the line directly under the owner's name. Summer address of owner, where known, is shown in italics on the line under the owner's winter address.*
